LB 401, 1275

SPEAKER WITHEM: Yes, prior to taking up the next bill, I'd like to make an announcement as it regards to the agenda, both today and tomorrow. Senator Schimek is not here, so LB 76 will not be taken up. Some people were wondering as to after 1275 is disposed of, what will be the next item up. I believe it looks like LB 137 will be up. I know some people had an interest in that. Secondly, I'd like to call members' attention to the consent calendar list, it's on your desk. Would ask you to take a look at this. We're getting to the point where there may be some bills on here that individuals may not consider to be appropriate consent calendar material, so take a look at it.
